

P160 Ecoline Hose Test Chamber

Test Pressure	150 bar to 1300 bar
Capacity (litres)	33
Working Range	Up to 2" hoses
Drive Method	Air over water Intensifier
L x Width x Height	1400x 600 x 1200
Weight	210 kg (empty)
Testing Liquid	Water Emulsion
Filter	10 micron
Stek O Adaptors (included)	DN 4/6/8/10/12 / G1/2" (405.901)
Steck O Adaptors (included)	R 1/4", 3/8", 1/2" and G 1/2" 405.902

Description and Features

- Uses Staplok adaptors for quick install of next hose assembly
- Lifting the lid dumps pressure.
- Self purge bleed valve eliminates air from assembly before pressurization
- This model is designed for the user that needs test capability on a low volume basis and who wants a low initial investment but still requires accurate testing capability.
