Description and Features

- The S10 ecoline crimper is for the **workshop low volume End User** who has a requirement to crimp 2” hoses in a **repair** environment in a workshop or container on site
- This model is really aimed at the 2” hose market and below in both straight and elbow fittings, but with the added capability of an extra 80 tonnes force than S6.2 Ecoline.
- The machine comes with 10 die sets (see above) but there is a good range of extra dies available which go down to 6.8mm which is often purchased for crimping of mini-test hoses and small thermoplastic hoses. The largest die available is 131mm
- Crimping diameter is set with a micrometer and limit switch assuring accurate repeatable crimping
- Can crimp wide range of Industrial hoses up to 4” (depending on crimp force)
