### Description and Features

- The S10i crimper is for the workshop volume user who has a requirement to crimp 2" hoses in a repair or medium production environment in a workshop or container on site
- This model is really aimed at the 2" hose market and below in both straight and elbow fittings, but with larger opening than S6.2 Ecoline.
- The machine comes with 10 die sets ( see above) but there is a good range of extra dies available which go down to 6.8mm which is often purchased for crimping of mini-test hoses and small thermoplastic hoses. The largest die available is 131mm
- Crimping diameter is set with a micrometer and limit switch assuring accurate repeatable crimping
- Can crimp wide range of Industrial hoses up to 4" (depending on crimp force)
