

## S2M – Portable Crimper with Hand Pump Operation S2P - Portable Crimper with Air Pump Operation

Crimp Force kn/tonne	900 / 90
No Grease Feature	Yes
SAE R12 /4SP (straight fitting)	1 ¼ or -20
90 Deg Elbow Fittings	1" or -16
Industrial Hose	1 ¼"
Crimp Range	63mm
Crimp Path (die Size + 22mm)	22mm
Max Opening (without Dies)	77 mm
Drive Method	Manual or Air
Die Series	263
Oil Capacity	0.75 litre
Length x Width x Height	500 x 420 x 440
Weight	32 kg
Dies in Standard Package ( Die Length is 65mm)	17,20,24, 28, 32,40 + Storage Box
Optional extra Die Sizes Available for Purchase	6.8, 9, 12, 14, 36, 44, 47

### Description and Features

- The S2M crimper is for the low volume user who has a requirement to crimp hoses in a repair type of environment rather than production but wants to crimp bigger hoses than S1M model. It is reasonably portable with a weight of 32kg it can be easily taken on site or put in a van or UTE
- This model is really aimed at the 1" hose market and below in both straight and elbow fittings and 1 ¼" Industrial hoses.
- The machine comes with 6 die sets ( see above) but there is a good range of extra dies available which go down to 6.8mm which is often purchased for crimping of mini-test hoses and small thermoplastic hoses. The largest die available is 47mm
- Also available with air foot pump operation as S2P model and S2A model and S2 DC for single phase and DC van operation
- Crimping diameter is set with a micrometer and when crimp diameter is reached a light comes on ( no mechanical dead stop).
