AC Version

DC Version 12v and 24v

Description and Features

- The S6 ecoline crimper is for the workshop (or mobile) volume user who has a requirement to crimp hoses in a repair or medium production environment in a workshop or mobile van.
- This model is really aimed at the 2” hose market and below in both straight and elbow fittings.
- The machine comes with 10 die sets (see above) but there is a good range of extra dies available which go down to 6.8mm which is often purchased for crimping of mini-test hoses and small thermoplastic hoses. The largest die available is 92mm
- The 3ph model comes with integral power unit and DC model comes on feet with a separately mounted 12vDC or 24vDC Power Unit
- Crimping diameter is set with a micrometer and limit switch assuring accurate repeatable crimping
