

## S7 – 2" Crimper. 1PH, 3PH, DC Options

Crimp Force kn/tonne	2400 / 240
No Grease Dies Feature	Yes
SAE R12 /4SP/ R15 (straight fitting)	2" or –32
90 Deg Elbow Fittings	2" or –32
Industrial Hose	2 "
Maximum Crimp Diameter	82 mm
Crimp Path die Size+24 mm	24 mm
Max Opening (w/o Dies)	110 mm
Drive Method	Hyd Power Unit
Die Series	239L, 265
Oil Capacity	2.3 litres
Length x Width x Height	430 x 367 x 682
Weight	77 kg
Dies in Standard Package ( Die Length 40mm to 110mm ( depend on size)	17,20,24, 28, 32,40,44,50,57, 71+265.239L
Optional extra Die Sizes Available for Purchase	6.8, 9, 12, 14,16,19,22, 26, 36,47,54,62,67, 74,78

### Description and Features

- The S7 crimper is for the workshop ( or mobile) user who has a requirement to crimp hoses in a repair or medium production environment in a workshop or mobile van.
- This model is really aimed at the 2" hose market and below in both straight and elbow fittings.
- The machine comes with 10 die sets ( see above) but there is a good range of extra dies available which go down to 6.8mm which is often purchased for crimping of mini-test hoses and small thermoplastic hoses. The largest die available is 78mm
- The 24vDC model is really good for mobile van because a 240 tonne crimp force in a package weighing only 77kg is a nice combination. Best fitted at back or side of van on slide out rails allowing large heavy and long hoses good access from underneath, giving good visibility.
- Crimp dia is easily set by turning handles until socket touches and then crimp path by micrometer.
